

David Dell'Agostino

Product Design, User Experience Design, Education

SUMMARY

An analytic, empathetic, and creative problem solver with strong communication skills, I have designed experiences ranging from complex enterprise applications to award-winning social marketing campaigns, robust e-commerce platforms, and life-saving medical device software.

EXPERIENCE

Senior Product Designer, Boston Scientific, 2021–Present

Lead product design of workflow management software revolving around AFib therapies in support of nurse coordinators and implanting physicians.

Collaborate regularly with product managers, product owners, engineers, and stakeholders to clarify, align, and meet business goals.

Research user needs and assess design decisions through ongoing interviews, prototypes, user testing, and analytics.

Established and maintain a design system to ensure consistent interaction and presentation, and to streamline development processes.

Effect design thinking and product design and development best practices through design workshops and internal user experience consulting.

Mentor and foster design maturity in associate designers.

Lead User Experience Designer, Ximedica, 2018–2020

Led user experience design on a variety of digital health and MedTech initiatives, including diagnostic devices, drug delivery systems, and care management software.

Collaborated regularly with program managers, industrial designers, engineers, and stakeholders, including clients, to clarify, align, and meet business goals.

Collaborated regularly with researchers on human factors through task analyses, prototypes, and formative and summative user testing.

Effected design thinking and user experience design best practices through design workshops.

Mentored and fostered design proficiency in associate designers.

Managed design and research consultants.

User Experience Design Lead, Swirl, 2014–2017

Led user experience design and user research on various advertising and marketing initiatives, including ecommerce platforms and social media campaigns.

Collaborated regularly with clients, account managers, creative directors, engineers, and other designers to ensure alignment with business goals.

Led design workshops in collaboration with strategists and stakeholders.

Managed design and research consultants.

Mentored and fostered design proficiency in associate designers.
